

ELECTRICAL OPEN

Golf Society App

User and Administrator Guide

Website <https://electrical-open.pages.dev> • Keep this guide with the society records.

Testing edition | August 2026

Using this guide

This guide is for members, score markers and the volunteers who administer the Electrical Open Golf Society app. The website works in a phone browser and can be installed to a phone home screen so it behaves like an app.

Quick contents

- 1. Before you begin
- 2. Add the app to a phone home screen
- 3. Sign in and reset a password
- 4. Everyday member guide
- 5. Enter a paired scorecard
- 6. Membership and handicap administration
- 7. Fixture and results administration
- 8. Troubleshooting and safe working rules

Important The information displayed in the app is the society record. Check names, dates, course details and scores before publishing a result.

1. Before you begin

- Use the current version of Safari on iPhone, or Chrome/Samsung Internet on Android.
- Use a stable internet connection when signing in, saving a scorecard or publishing results.
- The website address is <https://electrical-open.pages.dev>.
- Each member should use their own email address and their own password. Do not share an administrator account.

2. Add the app to a phone home screen

Installing the website is optional, but it makes Electrical Open easier to find and is the best route for receiving notifications.

iPhone or iPad — Safari (recommended)

1. Open Safari and go to <https://electrical-open.pages.dev>.
2. Tap the Share button (the square with an upward arrow).
3. Scroll down and tap Add to Home Screen.
4. Leave the name as Electrical Open, then tap Add.
5. Open Electrical Open from the new home-screen icon and sign in.

iPhone Chrome For the most reliable home-screen installation and notifications, open the website in Safari and follow the steps above. Chrome may not show the same installation option on every iPhone.

Android — Chrome

1. Open Chrome and go to <https://electrical-open.pages.dev>.
2. Tap the three-dot menu in the top-right corner.
3. Tap Install app. If that wording is not shown, use Add to Home screen.
4. Confirm Install or Add. The Electrical Open icon will appear on the home screen or app list.

Samsung phones — Samsung Internet

1. Open Samsung Internet and visit <https://electrical-open.pages.dev>.
2. Tap the menu button (three lines).
3. Choose Add page to, then Home screen. Confirm the app name and add it.

If the wording looks different

Phone manufacturers change menu wording. Look for Install app, Install, Add to Home screen or Add page to Home screen. If it is missing, update the browser, reopen the site, and try again.

3. Sign in and reset a password

Figure 1. The Electrical Open sign-in screen.

Sign in

1. Open Electrical Open from its home-screen icon or visit the website.
2. Enter the email address linked to your player profile.
3. Enter your password and tap Sign in.
4. After a successful sign-in, use the initials button at the top of the screen to check the signed-in profile or sign out.

Forgotten password

1. Tap Forgot password? below the sign-in button.
2. Enter your email address and request the reset message.
3. Open the email promptly. The reset process may send an eight-digit verification code.
4. Enter the code in the app, choose a new password, confirm it, and save it.

Security Use a memorable password of at least 12 characters. Never forward a password-reset email or verification code to anyone else.

4. Everyday member guide

What members can see

Area	What it is for
Home	Your handicap summary, next fixture, and links to the three most recent completed fixtures.
Handicap	Your handicap index, club handicap if recorded, handicap history and linked scorecards.
Scorecard	Your own scorecard workspace for the current fixture when score entry is enabled.
Fixtures	Upcoming start sheets and completed results. Open a round for details.
Merit	The Order of Merit table, with a year choice where records are available.

Notifications

1. Tap your initials at the top-right of the app.
2. Choose the option to enable notifications, then allow the browser when your phone asks for permission.
3. The bell next to your initials indicates notification status: green means enabled; red means attention is needed or notifications are not enabled.
4. You can opt out later from the same initials menu. Sign out remains available there too.

The society sends notifications for new fixtures, fixture date/time changes, and published results. If no alert arrives, check phone notification permissions and confirm that Electrical Open is opened from its installed icon.

Viewing a fixture or result

30 AUG							
Weston Turville – Kelly Cup							
Par 69 · Slope 116 · Course rating 67.8							
POS	PLAYER	INDEX	PLAYING	GROSS	NETT	PTS	OOM
—	Gary BRITTON	7.0	6	—	—	—	—
—	Paul CARROLL	17.5	17	—	—	—	—
—	Mark DOOLAN	20.3	20	—	—	—	—
—	Dave HOLE	28.3	28	—	—	—	—
—	Brendan KELLY	23.4	23	—	—	—	—
—	Andy NICHOLLS	5.0	4	—	—	—	—
—	Darren O'NEILL	17.7	17	—	—	—	—

Figure 2. A fixture start sheet showing players, index and playing handicap.

- Select Fixtures from the bottom navigation.
- Upcoming fixtures show the course, competition, date, tee time and, when entered, course par, slope and course rating.
- Completed fixtures appear under Results. Open a round to see the ordered list and, where available, View scorecard.

5. Enter a paired scorecard

A paired scorecard lets a member enter their own gross shots and mark one other participant's gross shots on the same card. The app calculates Stableford points from the fixture course data and each player's playing handicap.

Paired scorecard Draft

Record your score and one other participant's score. Drafts save automatically.

Player A to mark

Mark DOOLAN

HOLE	PAR	SI	ME SHOTS	ME PTS	A SHOTS	A PTS
1	4	8	5	—	5	—
2	4	4	6	—	5	—
3	3	12		—		—
4	3	18		—		—

Figure 3. Paired scorecard layout: your strokes and Player A's strokes are recorded side by side.

Before you start

- You must be listed as a participant in the fixture.
- The administrator must have entered the course details and all 18 holes (par and stroke index).
- Score entry must be enabled for the fixture. During testing this may be available before the fixture day.

Recording the score

1. Tap Scorecard in the centre of the bottom navigation.
2. Select the relevant fixture if more than one is available, then tap Open scorecard.
3. Choose Player A from the participant list. Select the golfer whose card you are marking.
4. For each hole, enter your gross shots under ME SHOTS and Player A's gross shots under A SHOTS.
5. Check the calculated points. The Out, In and total rows help you check the card as a normal golf scorecard.
6. Pause if needed. A draft saves automatically. Return to the same scorecard to continue.
7. Before submitting, compare the physical card with your playing partner and confirm that it is correct.

After submitting

The paired entries are retained so a later check can highlight differences between the two records. Tell an administrator promptly if a score needs correcting. Administrators can retrieve and amend submitted scorecards through scorecard modification.

Non Return If a round is incomplete, contact an administrator so it can be recorded as Non Return (NR). Do not invent hole scores to complete a card.

6. Membership and handicap administration

Administrators use the small Admin button next to their initials. It is not shown to ordinary members. Access is role-based: a membership administrator can manage membership, participants and fixture calendar information, while course details and results remain restricted to the appropriate administrators.

Membership list for a season

1. Tap Admin, then open Membership & Handicaps.
2. Choose the required year. The upper list shows members currently selected for that season.
3. To correct an error, use Remove beside the name in the selected-member list.
4. Use the database-player list below to find an existing player and tap Add. The player moves to the season-member list.
5. For a completely new player, use New member. Enter the name in the required format: SURNAME, Name. Confirm the player and then add them to the season.

Handicap information

- Record a club handicap and its submitted date when this has been provided by the member.
- The lower of the society handicap index and club handicap is used when preparing a scorecard.
- Use special index adjustment only for an agreed exceptional circumstance; make a clear note in society records.
- Guests are not season members and do not receive Order of Merit points.

Fixture participants

1. Open Fixture participants and choose the fixture.
2. The upper list is the fixture participant list. Use Remove to take out an entry added in error.
3. Use the member list below to add season members. Lists are kept in surname order.
4. For a guest, first search for an existing player. If not found, add them manually in the format SURNAME, Name and enter their handicap index.

Check before play Add all participants before a scorecard is started. A guest's handicap index and playing handicap should be visible on the fixture start sheet.

7. Fixture and results administration

Create or edit a fixture

1. Tap Admin and open Fixture Calendar.
2. Create a fixture with course name, competition name, date and tee time. Example competition names include Kelly Cup or Ryder Cup.
3. Save the fixture. New fixtures, and later changes to date or tee time, can notify subscribed members.
4. To amend an existing fixture, select it first so current database values load into the form. Make the change and save.

Enter course details and scorecard information

1. Open Fixture Course details and choose the fixture.
2. Enter the tee, course slope, course rating and course par. These calculate playing handicaps.
3. Enter par and stroke index for every hole. The app checks every stroke index is unique, runs from 1 to 18, and that total hole par equals course par.
4. Correct any highlighted issue and recheck before saving. Existing historical results retain their saved course/scorecard information.

Scores, results and publishing

1. Open Scores & Results and choose the fixture. Only its participants are displayed.
2. Retrieve a person's existing card before modifying it; check all changes against the physical scorecard.
3. Before publication, confirm every entrant has either a complete card or an authorised NR record.
4. Enter the Playing Conditions Calculation (PCC). The permitted range is -1 to +3.
5. Publish only after checks pass. Results are ordered on Stableford points with society countback rules where tied.
6. When all work is complete, an authorised administrator can Commit the fixture. It becomes Completed, is removed from active admin drop-downs, and remains visible as a result.

Order of Merit rules at a glance

Position	Order of Merit points
1st	20
2nd	16
3rd	12
4th	8
5th	6
All other participating members	1

Only members receive Order of Merit points. Guests can appear in a fixture result but are excluded from Order of Merit awards. The standings use the selected year, defaulting to the current year.

8. Troubleshooting and safe working rules

Quick fixes

Problem	What to do
Cannot sign in	Check email address, reset password if needed, and use the latest reset email/code only.
No notifications	Open the installed app, tap initials, enable notifications, and allow notifications in phone settings.
Cannot open a scorecard	Check you are a participant, course details are complete and score entry has been enabled.
Player or guest missing	Ask an administrator to add the player to the season, then to the specific fixture participant list.
Wrong score submitted	Do not create another card. Ask an authorised administrator to retrieve and modify the submitted card.
Admin button not visible	Your account has no admin role, or is not linked to the correct player. Ask the highest-level administrator to check access.

Good administration practice

- Use an individual admin account for every volunteer. Do not share passwords.
- Check participants, playing handicaps and course details before the event starts.
- Keep paper scorecards until the result has been checked, published and committed.
- Publish only one confirmed result for a fixture. Correct mistakes through administration screens before committing.
- Use the same naming format consistently: SURNAME, Name. This prevents duplicate players and makes lists easier to search.

Support information

For access, membership or result queries, contact the society's highest-level administrator. For an app problem, provide a screenshot, the fixture, player name and the phone/browser being used.

Testing reminder Score entry is currently available for testing. Before the live season, the society can switch on the setting that limits score entry to the day of the fixture.
